

INDEX

Acarology

Notes on the Halacaridae of Yorkshire, 41-48; Two new species of mites from the Yorkshire Wolds, 65-70

Biography

The amateur and professional scientist: a comment on Louis C. Miall (1842-1921), 141-145

Book Reviews

22, 30, 39-40, 52, 64, 110, 121-122, 123-124, 132, 140, 154-158

Botany

Studies on the flora of Teesdale, 3-21; Hybrid willows, 38-39; Pondweed records, 147-148; Botanical report for 1984, 150-154

Bryophyta

The bryophyte flora of West Lancashire: additions and deletions, 77-80

Diptera

The distribution and biology of Sphaeroceridae in upland regions of northern England, 81-90; Diptera report: 1977-84, 111-117; New craneflies for Yorkshire, 146-147

History of Natural History

Naturalists on Hatfield Moor, 103-110; Collectors and collections, 125-132; The amateur and professional scientist: a comment on Louis C. Miall (1842-1921), 141-145

Hymenoptera

The wasps and bees of Pompoali, near Leeds: the first 27 years, 49-51; *Coelichneumon bilineatus* and *C. consimilis* in Yorkshire, 146

Mycology

Autumn fungus foray, 1982, 37; Spring fungus foray, 1983, 37-38; 100th autumn fungus foray, 1983, 117-120; A fervour for fungi, 121-122; Fungus forays in 1984, 148-149

Ornithology

The population and distribution of nightjars on the North York Moors, 23-28; Wildfowl movements in Yorkshire and Lincolnshire and elsewhere along the east coast of Britain, 1982, 53-64; Little gulls in Yorkshire, 91-98; Optimal foraging by breeding dippers on a Lancashire hill-stream, 99-103; Hornsea Mere decoy, 120

Parasitology

The helminth parasites of the European eel from the Driffield Canal, 31-36; Parasites of British, lake-dwelling leeches, 133-140

Turbellaria

Freshwater microturbellaria from the English Lake District, including three species new to Britain, 29-30

Yorkshire Naturalists' Union

YNU excursions in 1984, 70-77
